

ROSS MACLEAN RACING

Supporting the fight against motor neuron disease (MND)

With 400 new cases of motor neuron disease identified annually across Australia and no known cure, the Ross Maclean Fellowship fund supports MND research at the Queensland Brain Institute. QBI is a world-class centre dedicated to neuroscience excellence at the University of Queensland.

ROSS MACLEAN
Racing

Early symptoms of this devastating illness include muscle weakness and speech and swallowing difficulties due to weakness of the tongue and throat muscles.
